

# Application Training CT Protocols (Somatom Go Family from Siemens) (5 days) CODE : CTPROTOCOGO5

## TRAINING CONTENT:

- Acquisition and Reconstruction Parameters.
- Routine Protocols.
- Angiography Protocols.

## TARGET GROUP:

- X-Ray Technologist.
- Student in Medical Imaging.
- Radiologist
- Resident in Radiology

## Training Material :

- Documents

## PREREQUISITE:

- General Knowledge in X-Ray and CT.

## DURATION:

- 5 days (15:00-20:00): Virtual

## Detailed Training Program

### Day 1 : 15h00 - 20h00

- Topogram.
- Tomogram.
- Acquisition Parameters.
- Reconstruction Parameters.

### Day 2 : 15h00 - 20h00

- Protocol Head Routine.
- Protocol IAC.
- Protocol Sinus.
- Protocol Orbit.
- Protocol TMJ.
- Protocol Trauma.
- Protocole Lumbar Spine.
- Protocole Cervical Spine.

### Day 3 : 15h00 - 20h00

- Protocol Thorax.
- Protocol Abdomen Multi-Phases.
- Protocol Pelvimetry.

### Day 4 : 15h00 - 20h00

- Injection Parameters
- Protocol Angio Head & Carotids.
- Protocol Angio Abdomen.
- Protocol Pulmonary Embolism.
- Protocol Angio Lower Limbs
- Protocol Neck Biphasic.

### Day 5 : 15h00 - 20h00

- Protocol Hand.
- Protocol Wrist.
- Protocol Foot.
- Protocol Ankle.
- Protocol Knee.
- Protocol Shoulder.
- Protocol Hip.
- Protocol Osteo.

## TRAINING FEES:

- 300,00 USD for medical imaging students.
- 500,00 USD or residents and technicians in Radiology.
- 600,00 USD for Medical Radiologists.
